I Collaborate, I Invent, and I Redesign

Thinking creatively, solving problems, and enjoying learning is a great recipe for helping all students ignite their passion for science, technology, engineering, art and mathematics. Madison STEAM Primary brings real world experiences that will challenge and ignite a love for learning and develop higher-level thinkers.

Come to Madison STEAM Academy

Become a Scientist, Inventor, Artist, Creative Thinker

Key STEAM Curriculum Goals

- Use nature to stimulate curiosity
- Learn through inquiry and observation
- Recognize and solve real world problems through observations, active explorations, interactions, and discussions with peers and adults
- Stimulate imagination and creativity through the arts and technology
- Encourage an open and questioning mind that constantly seeks new knowledge and understanding.
- Stretch students' minds beyond the boundaries of printed text
